JavaScript	Git	SQL

### EDUCATION

#### Bachelors Degree

##### POLIS University

2021 - 2024

A 3-year bachelors degree in Computer Science.

#### Profesional High-School Diploma

##### Hermann Gmeiner ICT High-School

2017-2021

A 4-year professional ICT high-school diploma in the field of Informational Technology and Communication

### LANGUAGES

Albanian

English

### PROFILE

I'm Arsen, a 22-year-old software developer specializing in web development. Recently graduated with a degree in computer science, I possess expertise in HTML, CSS, JavaScript, SQL, React.js, and more. My portfolio showcases projects demonstrating my ability to create intuitive and visually appealing interfaces using these technologies. I am dedicated to continuous learning and eager to contribute my skills to dynamic teams working on innovative projects.

### WORK EXPERIENCE

#### Software Developer

PayLink SH.A 2023-2024

I specialized in managing, maintaining, and implementing server tasks essential for generating reports, executing procedures, and personalizing cards. My role centered on leveraging PL/SQL to optimize data handling across diverse systems. I excelled in logical problem-solving, actively contributing to meetings to enhance decision-making processes. Additionally, I mentored interns, imparting knowledge of complex information systems and fostering a collaborative learning environment. My tenure underscored a commitment to precision, innovation, and effective data management practices.

#### Junior Software Developer

OTP Bank Albania 2022-2023

My primary responsibilities included generating reports, addressing front-end issues and hardware defects, validating data accuracy, and developing SQL scripts to automate tasks. This role not only strengthened my technical skills but also significantly improved my communication abilities through daily interactions and collaborative problem-solving with team members and stakeholders. My experience underscored the importance of precision and efficiency in delivering solutions within a dynamic banking environment. It provided valuable opportunities to contribute to the team's success while adapting to the evolving needs of the industry.

#### Frontend Developer Intern

NEBULA Ltd. 2021-2021

I focused on enhancing my frontend development skills and mastering web application fundamentals. I gained hands-on experience with essential programming languages and frameworks such as HTML, CSS, JavaScript, React, Bootstrap, Tailwind, and various libraries to build efficient web applications. Additionally, I acquired knowledge and skills in UI/UX design using Figma. My time here was instrumental in improving my ability to collaborate effectively within a team environment. I developed a deeper understanding of teamwork dynamics and the importance of communication in delivering high-quality projects. This internship provided me with practical experience and a solid foundation in frontend development, preparing me for future roles in the field.
