## Summary

---

I'm a 23-year-old passionate software developer specializing in web development and data analysis. I am a fast-learning and hard-working individual with proficiency in ReactJS, who wants to improve his skills and gain professional experience.

## Experience

---

### PayLink SH.A | Albania, Tirana

#### Software Developer/Data Analyst | 02/2023 - 02/2024

I managed server tasks for generating reports, executing procedures, and personalizing cards, leveraging PL/SQL to optimize data handling across systems. I excelled in problem-solving, contributed to decision-making in meetings, and mentored interns by sharing knowledge of complex information systems. This role emphasized precision, innovation, and effective data management practices.

### OTP Bank Albania | Albania, Tirana

#### Junior Software Developer | 05/2022 - 02/2023

I was responsible for generating reports, resolving front-end issues and hardware defects, validating data accuracy, and creating SQL scripts to automate tasks. This role enhanced my technical skills and communication abilities through collaboration with team members and stakeholders. It emphasized precision and efficiency in delivering solutions within a dynamic banking environment, allowing me to contribute to the team's success while adapting to industry changes.

### Nebula Ltd. | Albania, Tirana

#### Front-end Developer Intern | 07/2021 - 11/2021

I honed my front-end development skills, mastering web fundamentals with HTML, CSS, JavaScript, React, Bootstrap, Tailwind, and libraries to build efficient web applications. I also gained UI/UX design experience using Figma and improved my teamwork and communication skills to deliver high-quality projects. This internship provided practical experience and a strong foundation in front-end development, preparing me for future roles in the field.

## Education

---

### POLIS University | Tirana, Albania

#### Computer Science | 07/2024

- Achieved a Bachelor's degree in the mentioned field of study.
- Awarded and maintained a full scholarship throughout the 3-year program.
- Effectively managed time while balancing academic responsibilities and professional work.
- Actively participated in various academic projects and hackathons, showcasing strong teamwork and problem-solving skills.
- Completed a highly regarded diploma thesis, recognized for its innovative research and practical application.
